About Company

A Brief Story About The Company

As a company, our priority is to satisfy the needs of our customers and maintain the highest standards and best practices in the market. We strive to lead by example in all that we do.

We began working in the commercial cleaning industry in 2018, initially focusing on periodic cleaning services. Since then, we have expanded our services to general cleaning and supermarkets, childcare centres, and commercial spaces.

For the first few years of our operation, we operated as a private contractor for many cleaning establishments in South Australia. After almost five years in the industry, we decided to expand our business and register it as a PTY LTD company, now known as SA Commercial Cleaning Services.
